How to stop a webpage from downloading on MS Internet Explorer

**Telkom**

# MS Internet Explorer

## Stopping a web page from downloading

### Step 1 of 5:

Enter a new web site address.

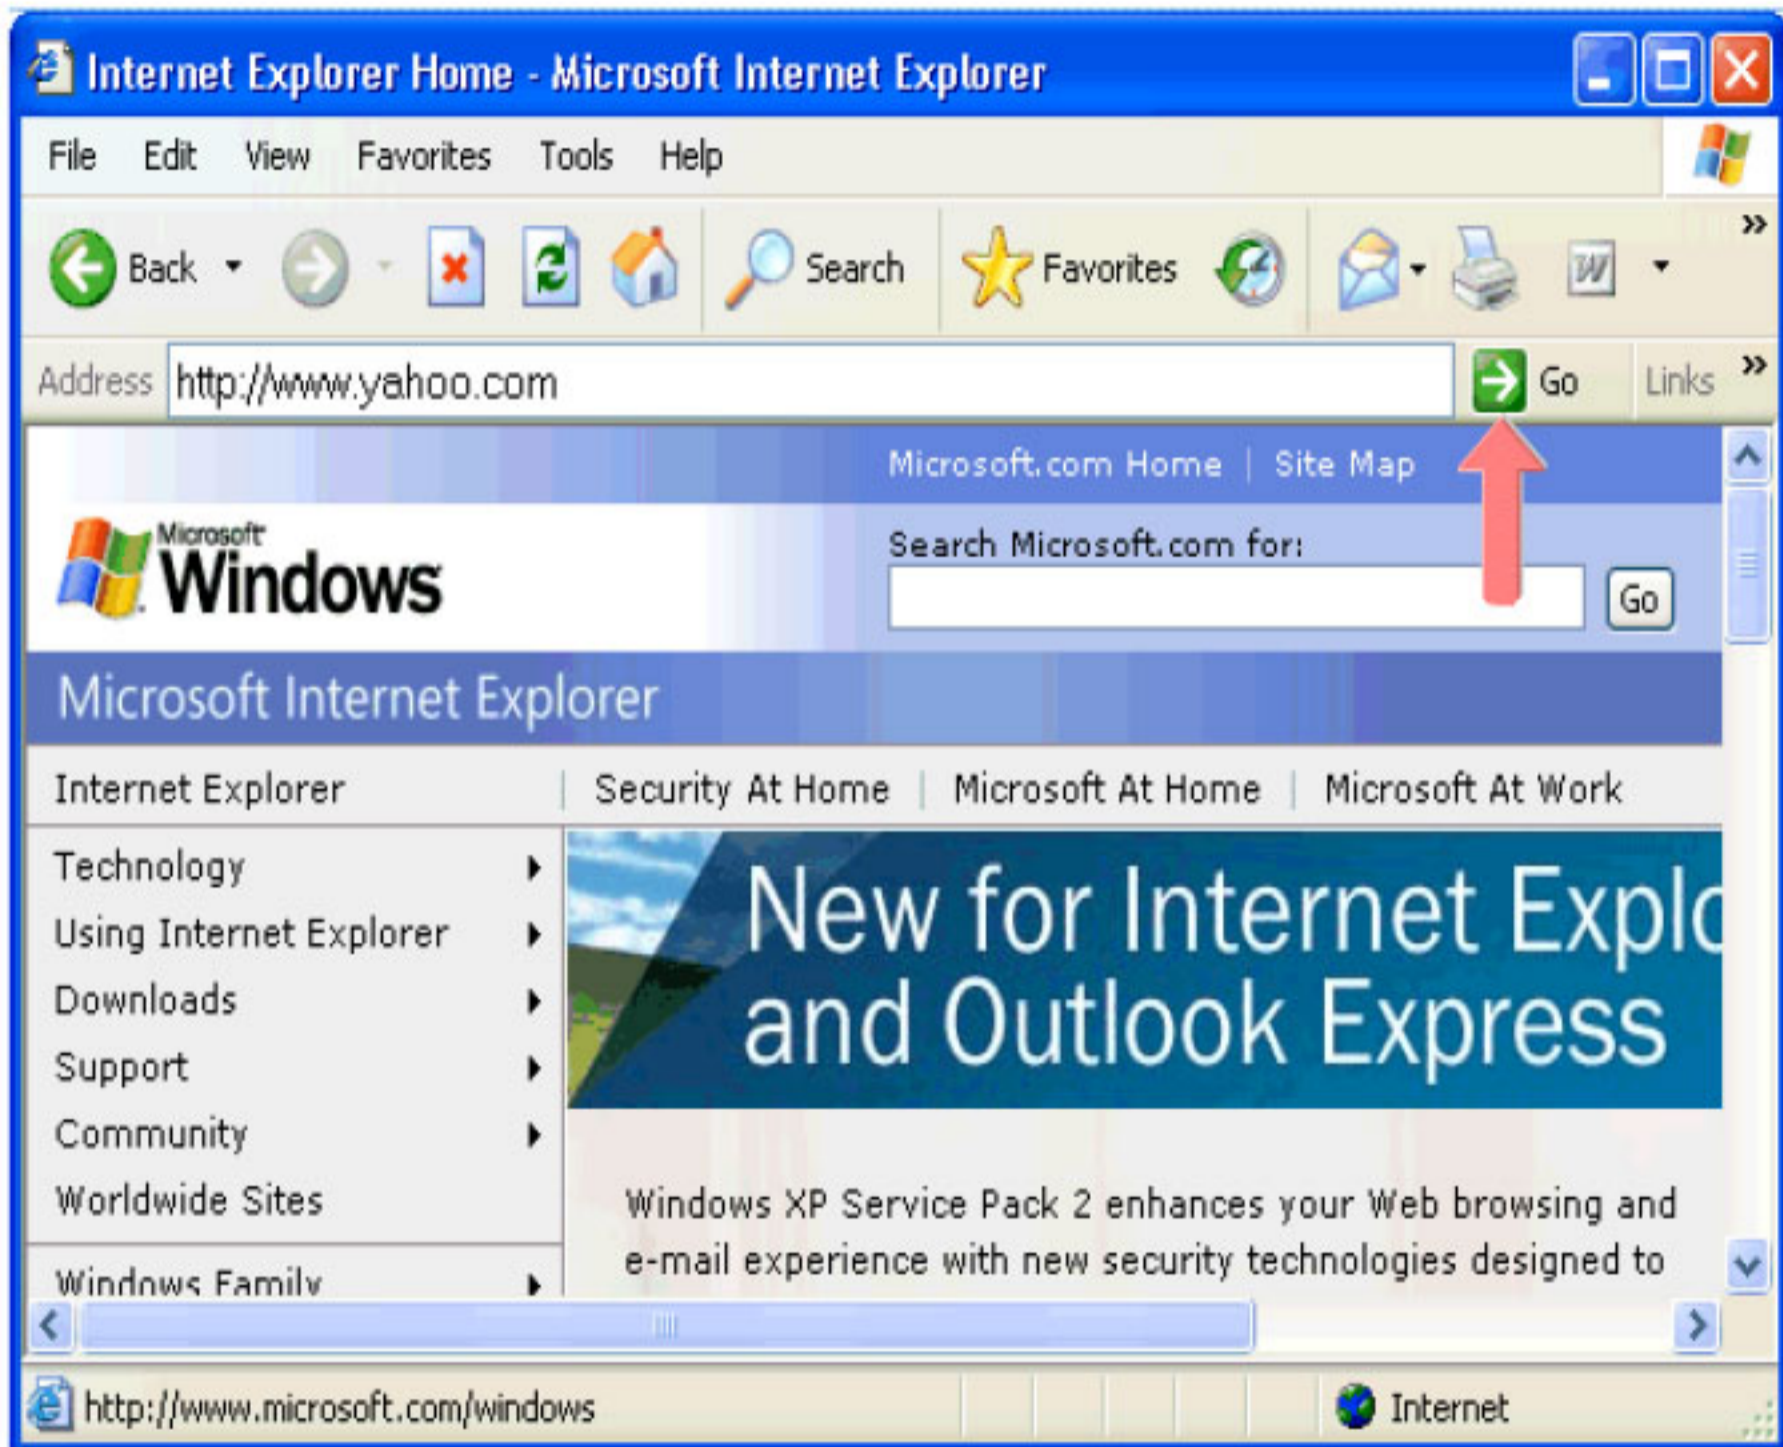

For this example enter "http://www.yahoo.com".

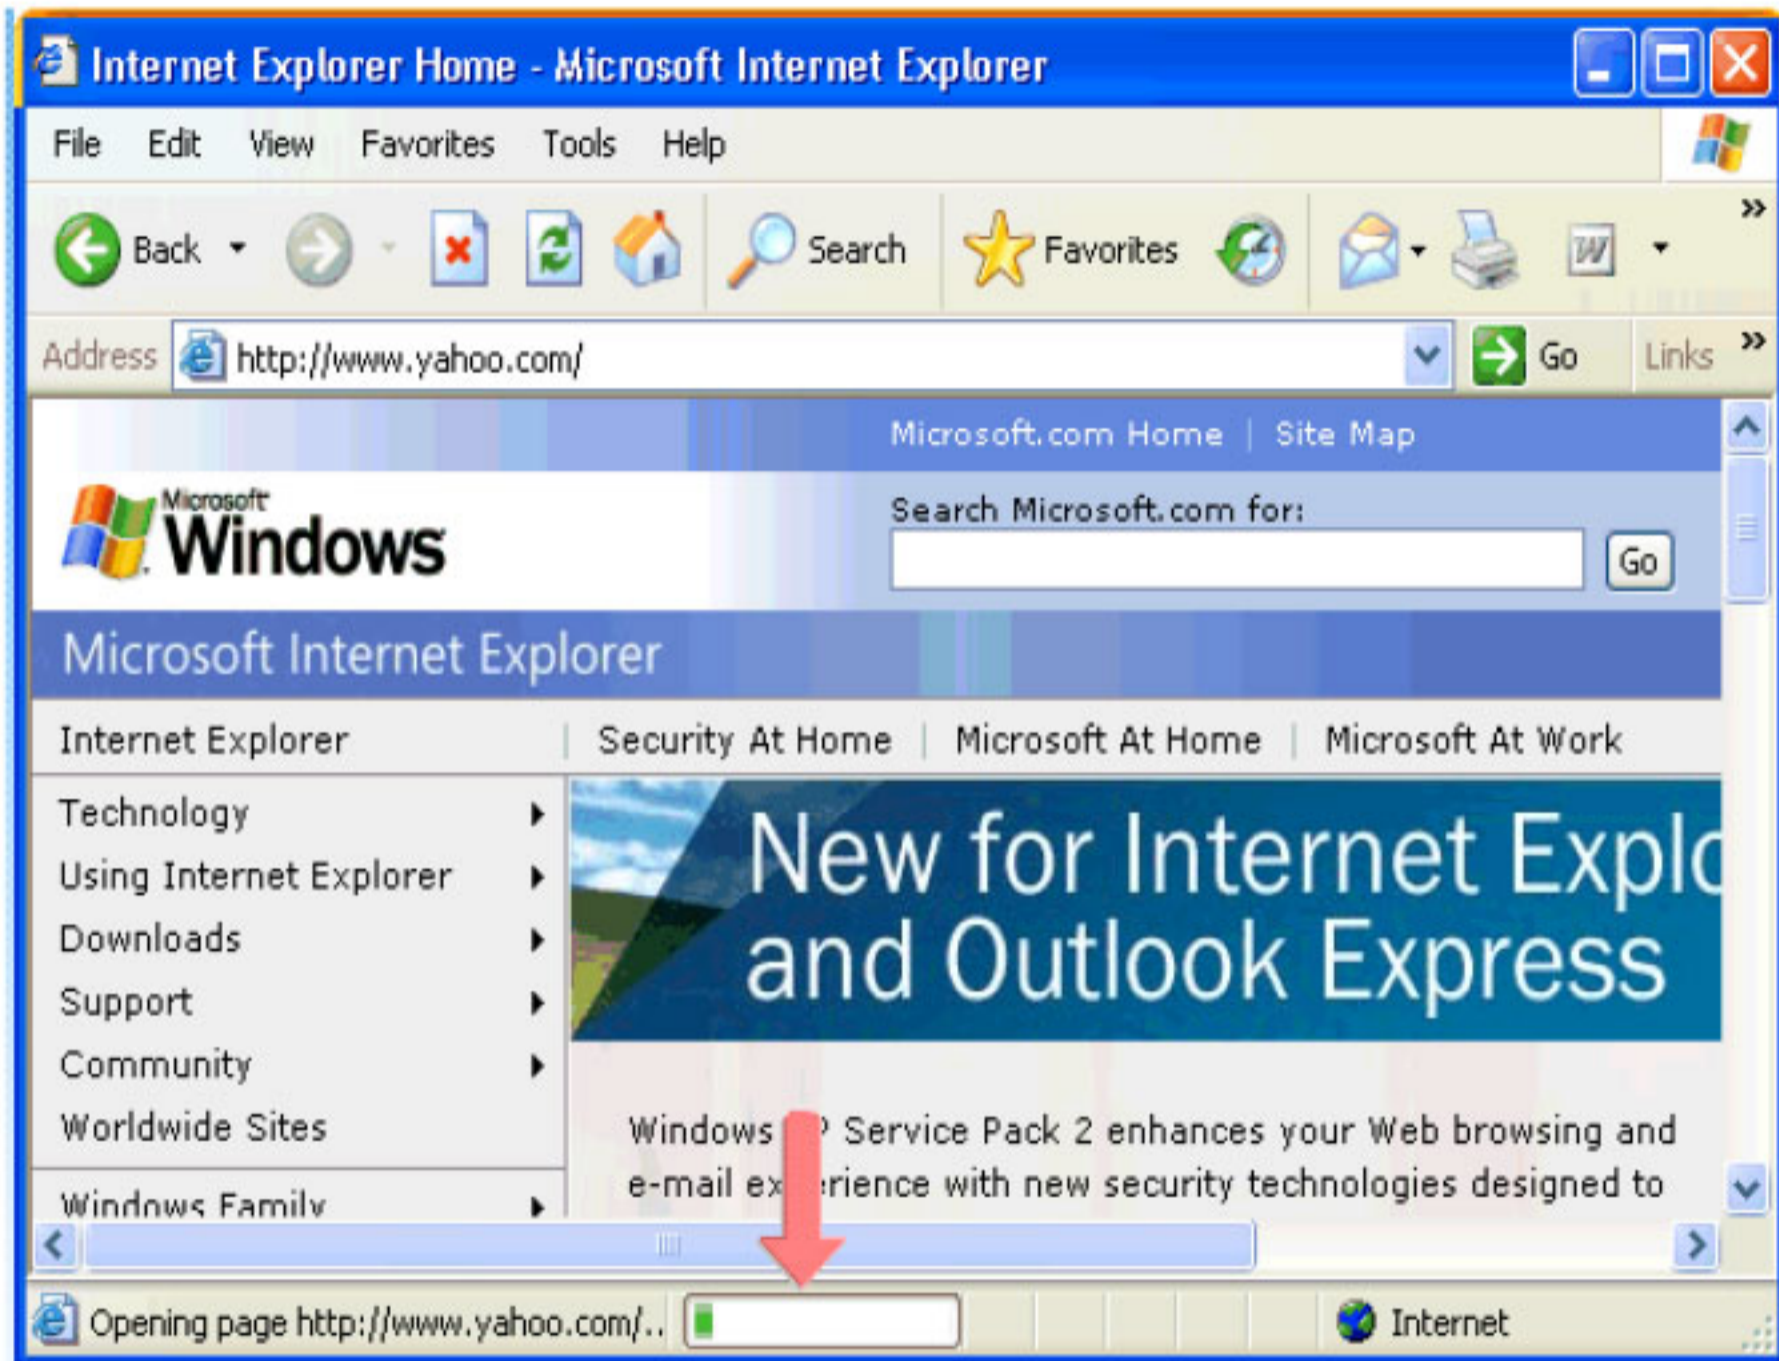

Step 2 of 5:

Click on the "Go" button.

Step 3 of 5:

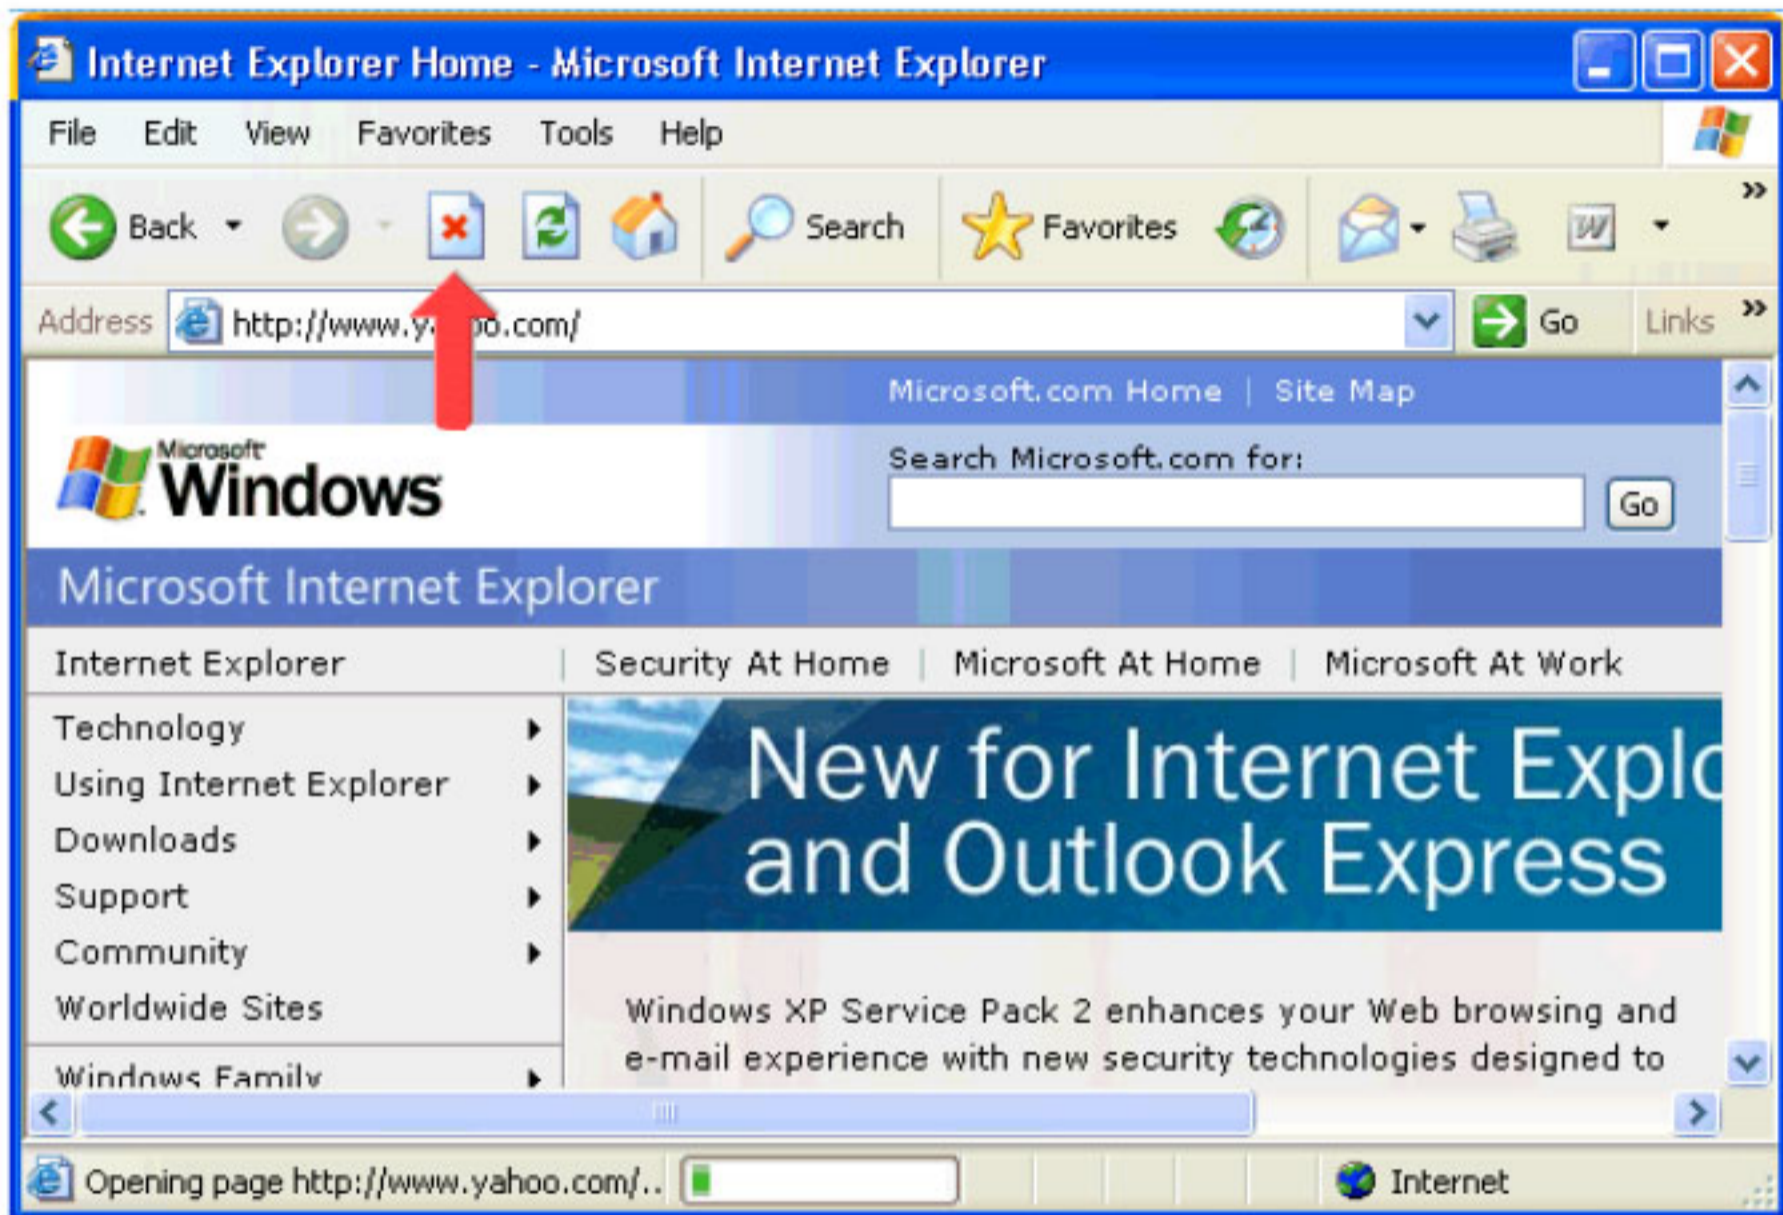

The Search bar will now display and show status for search.

## Step 4 of 5:

Click on the "Stop" toolbar button.

Step 5 of 5:

Internet Explorer will stop searching for the web site.
