Setting up Wifi

How to set up the BlackBerry Z10
to connect to your ADSL
via Wifi

Telkom

WIFI SETUP ON THE BLACKBERRY Z10

When you're at home it makes sense to connect to your home Wifi network.

Not only will connecting to Wifi stop you running up anycharges if you use a lot of internet, it will also let you join your handset to other devices or computers on your network without the need for cables.

SET UP WIFI

1. Open **Settings**
2. Choose **Network Connections**

- 3. Ensure Flight Mode is **Off**
- 4. Choose **Wifi**
- 5. Choose the network to connect to

- 6. Enter the **Wireless Passkey**
- 7. Choose **Connect**

Delete a Wifi Profile

1. Open **Settings**
2. Choose **Network Connections**

3. Ensure Flight Mode is **OFF**

4. Choose **Wifi**

5. Choose **Saved**

6. Select the Wifi you wish to delete

7. Choose **Delete**

8. Confirm you wish to delete the profile.

9. Wifi will now connect and show **Connected**
