

IP Voice Portal Set Up Guide

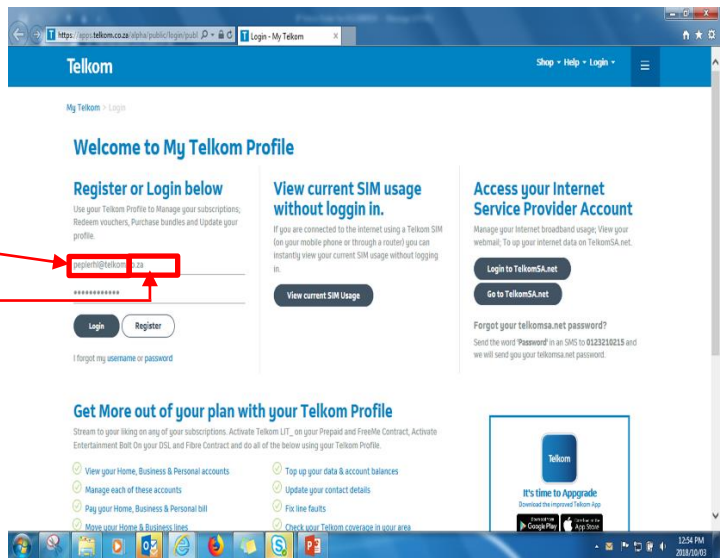

Customer will now receive an email with a link to the Telkom Portal once the technology change is completed. The customer will click on the hyperlink.

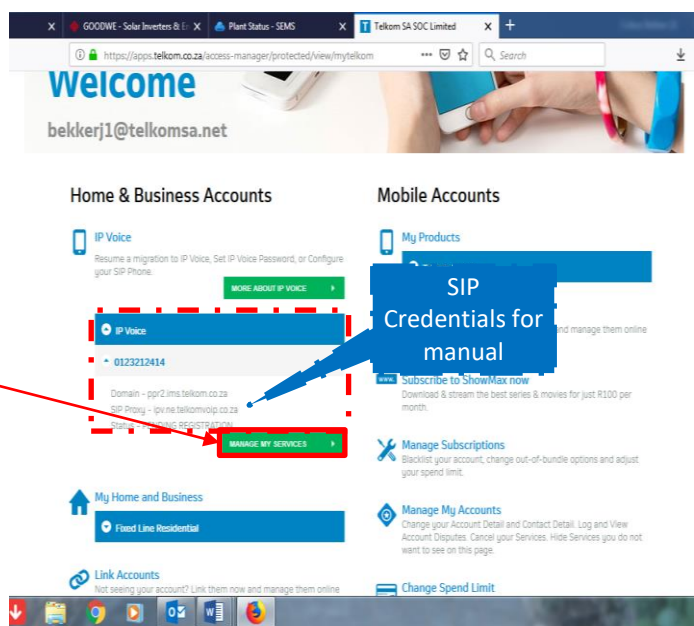

Once on the My Telkom Portal screen, the customer can:

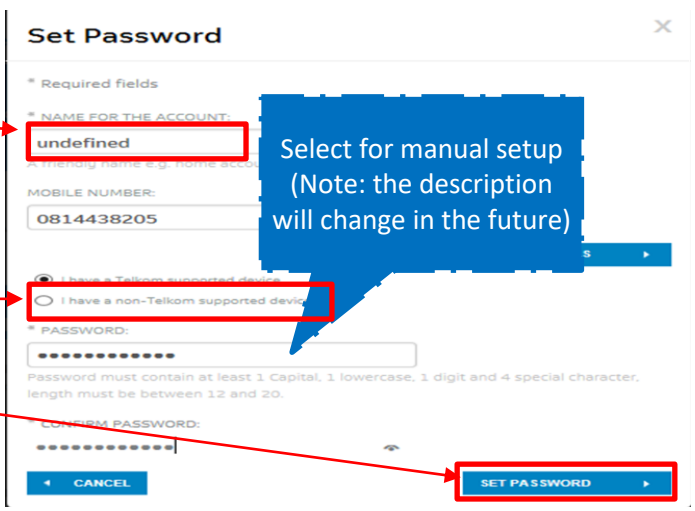

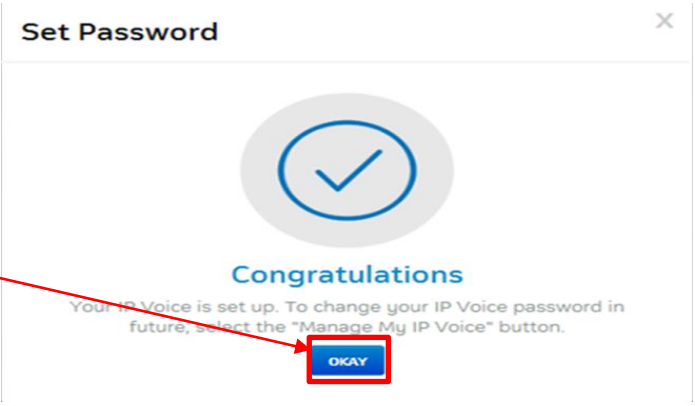

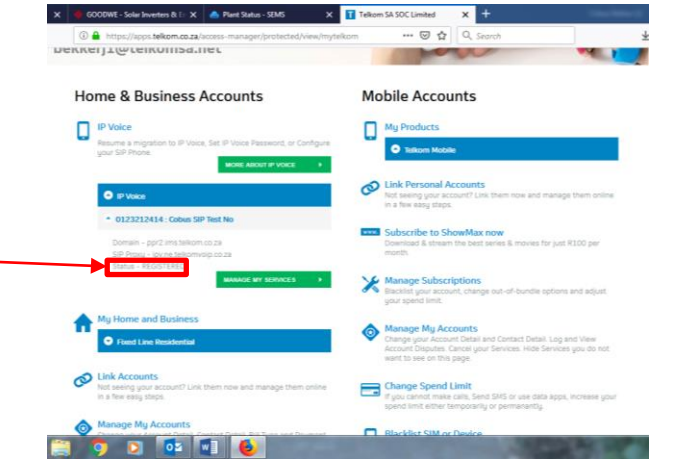

- Login, or
- Register on the portal.

Note: It is advised that the customer uses the same email address that was provided for the application to logon or register and link their accounts.

Customer will then click on the Manage My Services button.

<p>Select Name, "Enter correct exchange name".</p> <p>Select, Telkom device.</p> <p>The customer will now set a password for the IP Voice.</p> <p>Then the customer will click the Set Password button.</p>	
<p>A confirmation message will now appear and the customer can click the OK button.</p>	
<p>Status, indicates that the service has been registered.</p>	
<p>The Customer will receive final notification to indicate the configuration is successful.</p>
