# Creating PPPoE Connection in Windows 8

How to set up your ADSL on  
Windows 8.

**Telkom**

## Windows 8 Creating PPPoE Connection

In this guide I will show you how to create PPPoE connection in Windows 8.

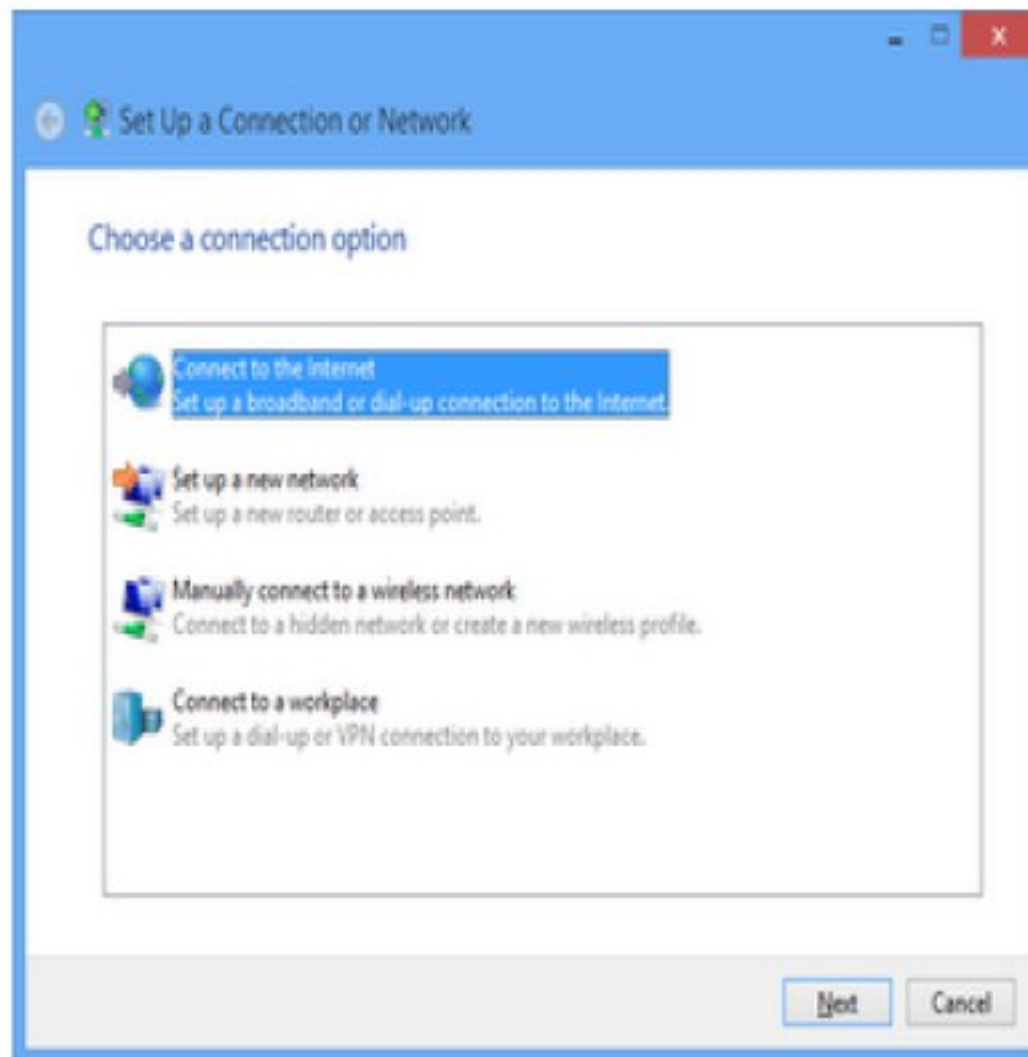

1. Go to Control Panel and click View network status and tasks

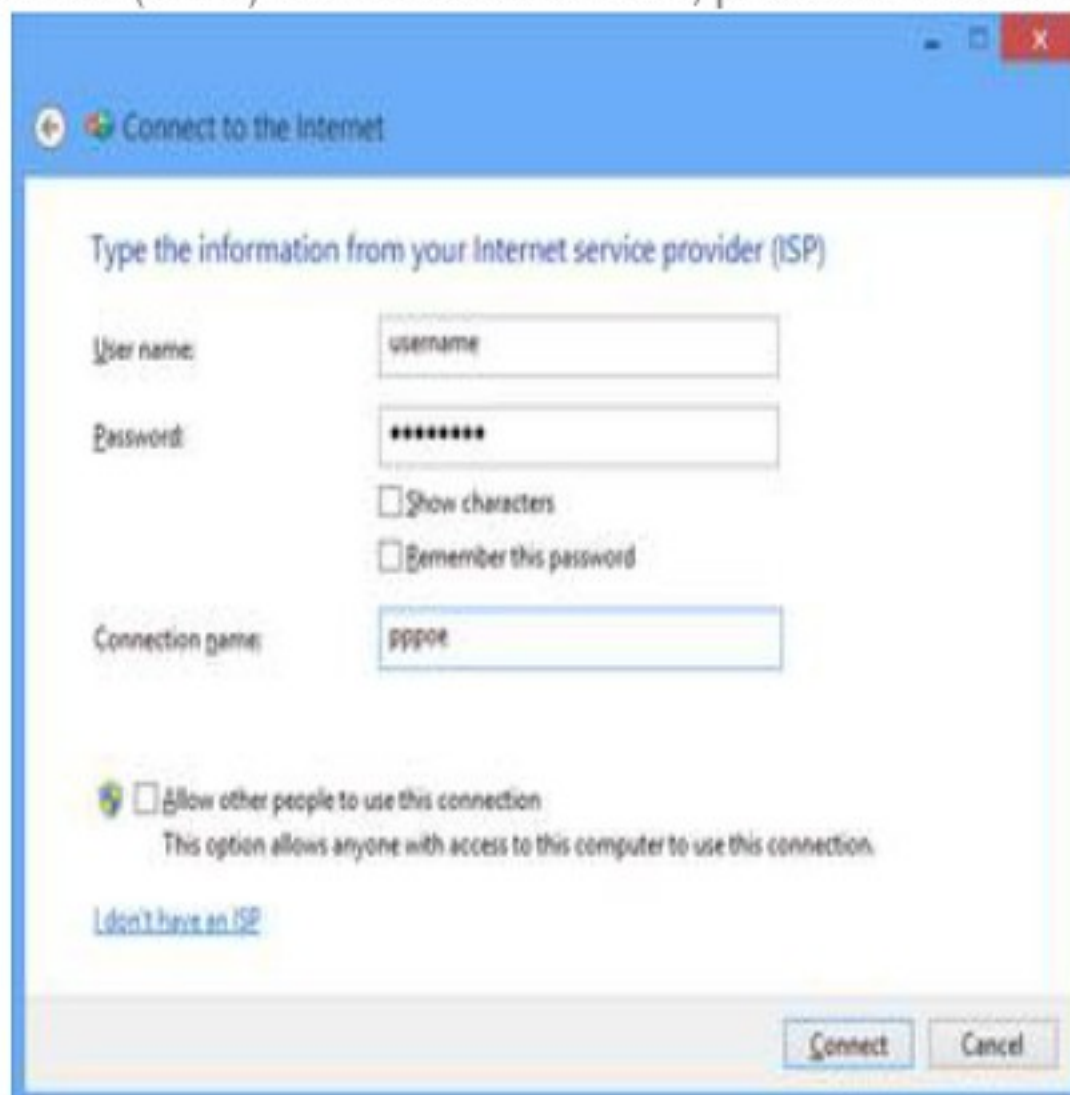

2. Your screen will now look like this:

3. Click **Set up new connection or network**, then click **Connect to the Internet** and click **Next**.

Select Broadband (PPPoE) and then enter username, password and connections name.

Click **Connect** and you will be connected to the Internet.
